# **PROGRAMME FOR INFRASTRUCTURE DEVELOPMENT IN AFRICA (PIDA)**

**EU-Africa Partnership for Infrastructure**

**Tunis, 7 April 2010**

# OUTLINE

## A. CONTEXT

### I. AFRICAN INFRASTRUCTURE

## B. PROGRAMME FOR INFRASTRUCTURE DEVELOPMENT IN AFRICA (PIDA)

### I. PIDA SCOPE

### II. OBJECTIVES OF PIDA & RESULTS EXPETED FROM THE STUDY

### III. KEY FEATURES OF PIDA

### IV. PIDA STUDY MAIN COMPONENTS

### V. STUDY STRUCTURE

### VI. STUDY GOVERNANCE

### VII. BUDGET AND PLANNING OF PIDA STUDY

## C. CONCLUSION

## A. BACKGROUND

### I- AFRICAN INFRASTRUCTURE

#### 1.1. Infrastructure pillar of economic growth and regional integration.

Infrastructure have significant implications for achievement of sustainable development objectives in Africa:

- Therefore critical role of infrastructure in Africa widely recognized
- But deficit in Africa infrastructure also widely recognized

#### 1.2. Initiatives on Infrastructure development

Against this deficit, many initiatives has been undertaken or are ongoing, including:

- EU-Africa Infrastructure Partnership;
- African initiatives: NEPAD Short Term Action Plan (STAP), NEPAD Medium to Long Term Strategic Framework (MLTSF), Programme for Infrastructure development in Africa (PIDA);
- Infrastructure Consortium for Africa (ICA);
- Others: African Infrastructure Country Diagnostic Study (AICD), African Action Plan (AAP), bilateral partnership, etc

## **B. PROGRAMME FOR INFRASTRUCTURE DEVELOPMENT IN AFRICA (PIDA)**

### **I. PIDA SCOPE**

**PIDA Project covers the 4 sectors ,Energy, Transport, Information & Communication Technology (ICT) and Water (Transboundary), and will be to be implemented in two major step: study step and the step of implementing the results of the study:**

**PIDA will benefit from Lesson's learned and data of studies and initiatives already undertaken or ongoing:**

### **II. OBJECTIVES OF PIDA AND EXPECTED RESULTS OF THE STUDY**

**PIDA overall objective is to optimise the efforts and use of resources in order to enable African Stakeholders to speak with one voice based on a common agenda and a common vision for infrastructure development.**

## B. PROGRAMME FOR INFRASTRUCTURE DEVELOPMENT IN AFRICA (PIDA)

### II. OBJECTIVES OF PIDA AND EXPECTED RESULTS OF THE STUDY (CONT.)

The specific objectives of PIDA are to enable African decision-makers to:

- Establish and implement a strategic framework for the development of regional and continental infrastructure based on a development vision, strategic objectives and sector policies;
- Establish and implement an infrastructure development programme articulated around priorities and phases; and
- Prepare an implementation strategy and process including, in particular, a priority action plan.

#### Expected results of the study

<ul style="list-style-type: none"><li>• Vision on Africa's infrastructure</li><li>• Strategic objectives</li><li>• Sector policies</li></ul>	<ul style="list-style-type: none"><li>• Regional and continental physical infrastructure projects</li><li>• Mater Plans</li><li>• Priority projects /Measures/ Phases</li></ul>	<ul style="list-style-type: none"><li>• Rolling plan of priority actions</li><li>• Financing,</li><li>• Monitoring and evaluation process</li></ul>
--	---	---

### III. KEY FEATURES OF PIDA

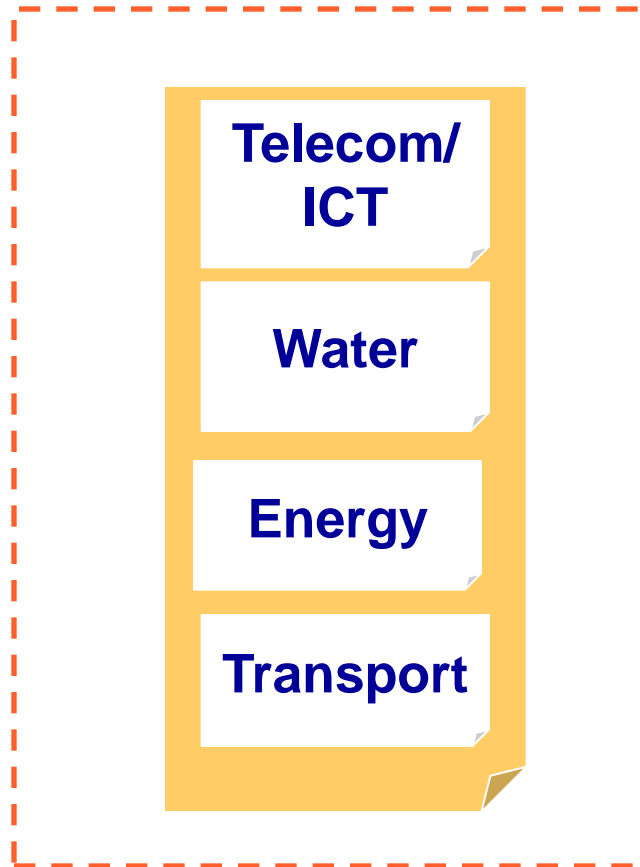

**Key features of PIDA are:**

- (i) Strong consensus ,**
- (ii) Making sense of existing knowledge ,**
- (iii) African owned ,**
- (iv) Policy and program oriented (Transport, Energy, Water, Telecoms & ICT sectors),**
- (v) Quality assurance,**
- (vi) Specified implementation strategy**

# B. PROGRAMME FOR INFRASTRUCTURE DEVELOPMENT IN AFRICA (PIDA)

## IV-PIDA STUDY MAIN COMPONENTS

### Components: Sector Studies

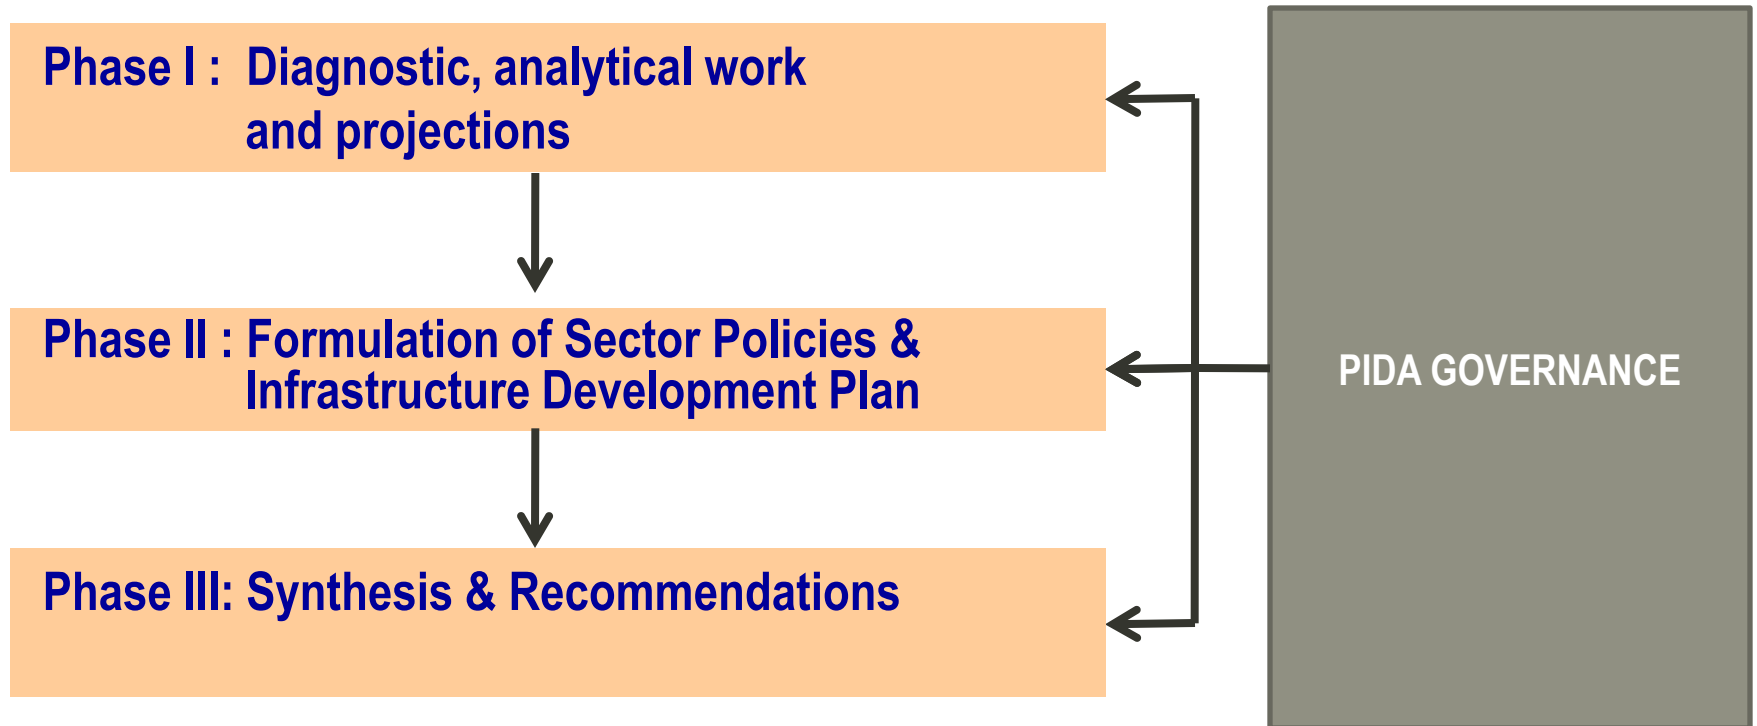

### Supporting Components

V. STUDY STRUCTURE

PIDA studies are structured according to the following a common phases:

## B. PROGRAMME FOR INFRASTRUCTURE DEVELOPMENT IN AFRICA (PIDA)

### V. STUDY STRUCTURE ( Cont.)

#### ACTIVITY OBJECTIVES

Assessment of Policies & Programmes

Development of Future outlook

#### INCEPTION

- Outline of Consortium organization & Program of work , Methodology, approach and initial findings;
- Contact with stakeholders to identify the nature & scope of existing information sources and start analysis and strategic thinking from data & information already available from: STAP, RECs policies, AICD, etc.

#### INCEPTION REPORT

- Detailed description of tasks to be undertaken, schedule of activities, resources
- Detailed collected data /to be collected , necessary for the analytical work
- Analytical framework to be used in the analysis for current /formulation policies, strategies
- Proposed methodology for the analysis of on-going and pipeline programmes
- First outline of the methodology to be used for projections, etc.
- Etc.

#### OUTPUTS & INPUTS OF PHASES

#### PHASE: I Diagnostic & Analysis

- Summary of prospects
- Report on: The evaluation of regional & Continental policies & strategies, outlook for the future and challenges in Infrastructure development, outline of Infrastructure development programme

Quality Control and Approval:  
review and approval process by  
PIDA governance

PHASE  
II

## B. PROGRAMME FOR INFRASTRUCTURE DEVELOPMENT IN AFRICA (PIDA)

### VI. STUDY GOVERNANCE

#### Governance Structure

**Steering Committee**

Deliverables

**Technical Committee**

Deliverables

Progress  
Review

**Executing Agency**

**Project Management Team**

#### Main roles

##### Approval and Guidance

AUC chairs

Project Team presents

Members: ADB + NEPAD Sec.+

RECs + ECA, Observers: ICA, IPPF, SI

##### Quality control

AUC+ADB co-chair

Members: NEPAD Sec. + ECA +

resource persons from SI

##### Procurement and financial management

ADB

##### Project management

ADB project manager, Sector

Experts, Research Assistant, Admin.

Support

### VI. STUDY GOVERNANCE(Cont.)

#### Focal Points and Technical Members

- **Focal Points**
  - At RECs level
  - At main Specialized Institutions (SI) level
  - Other regional institutions
  
- **Technical members (Other than AUC, AfDB & NEPAD Sec)**
  - Infrastructure/sector experts from RECs
  - Experts from Specialized Institutions

***NB: Member States experts are committed at regional level***

- **Development Partners**
  - Infrastructure partners fully involved as main Observers

## B. PROGRAMME FOR INFRASTRUCTURE DEVELOPMENT IN AFRICA (PIDA)

### VII. BUDGET AND PLANNING OF PIDA STUDY

**Overall Esteemed budget: 7.781 Million Euros (M€)** . The Funding sources are:

**Trough the African Union Commission:**

- NEPAD IPPF ;**
- European Union;**
- Islamic Development Bank (IsDB);**
- African Water Facility (AWF);**

**Trough the African Development Bank:**

- African Development Fund (ADF) Grant MLTSF;**
- Nigeria Technical Cooperation Fund (NTCF);**
- Department of International Development (DfID) UK;**

**Planning to complete the study: 18 months**

## **C. CONCLUSION**

**PIDA is a strategic tool and reference framework for the Development of infrastructure in Africa;**

**A strong support / commitment (political, financial, technical) is needed to achieve PIDA objectives ;**

**PIDA is a dynamical process from study step to the step of implementing the results of the study.**

شكرا لكم

**MERCI**

**OBRIGADO**

**THANK YOU**
